

# CocoView Dive Resort

## Roatan, Honduras

### October 16-23, 2021

#### The Resort

We like to refer to CocoView as Summer Camp for Divers! The resort located on the south shore of Roatan on a short channel with two beautiful wall reefs, a sandy front lawn and a wreck to explore. CocoView also has a house reef inside the channel that's perfect for dawn and night dives. With truly unlimited diving this is the perfect place to spend a dive vacation. This will be our 4th return trip.

#### The Diving

Beautiful walls and reefs alive with Caribbean fish and creatures. There are 4 boat dives a day. The boat takes you on a guided dive then drops you off on the way back at one of the large walls. You work your way back to the house reef and front lawn for a short walk to the dive lockers. If you desire a little more relaxation time, skip the drop off dive and find a hammock to rest in.

#### Dive Logistics

Each boat has its own dive lockers located behind the boat. Every diver gets a cubby in the locker to hang and dry your gear. Rinse tanks are located behind each locker for easy cleaning. Your gear is loaded on the boat for you. CocoView has unique dive boats with a center well. If it's a bit choppy you have the option to enter the boat through the center. They have thought of everything!!!
