THS Workstations

THS Workstations by Summit are modular systems that are infinitely configurable to accommodate an individual small workspace as well as up to and including large factory environments. Transform your space into an integrated, efficient and more productive work environment. Maximum flexibility and adaptability allows you to optimize your individual workspace and overcome workflow constraints. The Task Handling Solutions modular workstations are hard working, high-quality furniture developed for rugged, demanding working environments. Enjoy maximum versatility that's built to last.

***Customizable Modular Workstation
and Server Rack Solutions***

FEATURES:

THS modules come in four standard widths - 24, 30, 36 and 48 inches - and can be configured in a variety of ways.

Assemble one, two, three or four modules together (side-to-side or back-to-back) to form a bench solution.

Standard 72 and 82 inch height options, depths of 24, 30 and 36 inches, and worktops available in sizes 24, 30, or 36 inches deep by 48, 72 or 96 inches wide.

In addition to sit/stand options, various work surfaces are available, including: laminate, ESD laminate, woodblock, stainless steel, phenolic resin.

Easily add cabinets, drawers, lighting and other integrated accessories to meet your unique requirements.

Load-bearing capacity of the work-surface is 500 pounds.

BENEFITS:

Customize and maximize workstations according to your unique needs.

Flexible ergonomic design helps accelerate your processes and output.

Quickly and easily reconfigure your workstation to accommodate change and growth.

Longevity and adaptability of THS Workstations lowers your total cost of ownership.

Preconfigured quick ship options available, as well as the option to configure your own THS workstations by giving a call and request a quote.
